Summary

I am a new Junior Web Developer who has just finished his education and is looking to start a new career in web development. I have 3 years experience as Front Desk Specialist following 8 years as Medical Records specialist. In addition to normal job responsibilities, I helped with computer issues around the office. Examples include solving some computer issues before calling the IT company and assisting and instructing co-workers on how to better use their computers and Electronic Health Record programs.

Work History

Texas Children's Pediatric Association (formerly University Pediatric Association)

May 2012 - October 2023

- Created Excel Database of records in storage
- Created and fine-tuned reports for myself and my co-workers
- Extensive client-side experience on 3 different Electronic Health Record systems

Education History

edX Full Stack Flex Bootcamp - Spring 2024
Blinn College – Spring 2012
Baylor University – Fall 2011
St. Michael's Episcopal High School – Graduated May 2011

Skills and Proficiencies

HTML, CSS, and JavaScript
MongoDB and Mongoose
Node and Express
React
